ALMOST DESTROYED

Business Portion of Farmland
Swept by Fire.

LEGISLATURE WILL NOT MEET.

Judge McGregor Ignores the Indetermi-
nate Sentence Law—Store Pillaged and
Burned—Two Counterfeiters Given Five
Years by the Federal Court—Instantly
Killed by a Tree.FARMLAND, Ind., Nov. 29.—Fire broke
out early this morning in the heart of
this little city and the entire business
portion is destroyed and the loss is ter-
rible. Muncie was called on for help
and responded, but the fire had gained
such headway that it was almost im-
possible to check it. The fire started in
the rear of Bob Meeks' drugstore. It
was destroyed with G. B. Watson's
grocery, Branson's hardware store and
J. D. Davis' big general store. The
new opera-house, postoffice and Big
Four depot were all consumed. Farm-
land has 2,500 people with only a hand
chemical engine as protection from fire.MAN HATER'S WILL.
She Desires That None but Women Shall
Bury Her.KOKOMO, Ind., Nov. 29.—Near the
Howard and Tipton county (Ind.) line
there resides an irreconcilable man
hater. She is a spinster, leads a
hermit life and for 40 years has not
spoken to a man. She was disappointed
in love. The woman has quite a sum
of money secreted in her home. She is
seldom seen in town and always does
her trading with female clerks. She
has made a will and explicit directions
have been given that no man shall
preach her funeral sermon nor act as a
pallbearer. A woman shall drive the
hearse, and women lower the body and
fill the grave. No men are to be al-
lowed in the funeral procession. She
has willed a sum of money in trust to
pay all expenses.WILL NOT CALL ONE.
There Will Be No Special Session of the
Legislature.INDIANAPOLIS, Nov. 29.—Governor
Mount has announced that he will not
call a special session of the legislature to
consider measures for the relief of the
gas belt cities from the criminal waste of
gas. The governor thinks that the
laws already on the statute books have
by no means been exhausted and until
they are there is no necessity for such
an extreme measure as has been sought
by some of the mayors of the gas belt
cities.IGNORED BY THE JUDGE.
He Declines to Instruct a Jury Under
the Indeterminate Law.GREENCASTLE, Ind., Nov. 29.—Eugene
Day, who was charged with crack-
ing the safe of Charles A. Kelly's gen-
eral store several weeks ago, was tried
and given two years in the Indiana re-
formatory. Judge McGregor declined
to instruct the jury under the indetermi-
nate law, but instructed under the
old law and the jury brought in its ver-
dict accordingly, fixing the length of the
sentence.Died From Hydrophobia.
BOONVILLE, Ind., Nov. 29.—Young
Barnett, who was bitten last June by a
pet dog, is dead of hydrophobia. The
wound apparently healed but 10 days
ago the child, 12 years old, began to ex-
hibit symptoms of the dread disease and
rapidly grew worse and died late Sat-
urday. For three days before death he
suffered intensely, biting, barking and
snapping like a dog.Two Counterfeiters Sentenced.
INDIANAPOLIS, Nov. 29.—Heinrich A.
Brown, the photographer of Valparaiso,
and Theodore Hansen, two men whom
the government regard as dangerous
counterfeiters, were sentenced Saturday
in the federal court to the Columbus (O.)
prison for five years. They made a
specialty of silver certificates, and their
work was first class and very difficult
to detect.Oil in Wabash County.
ROANS, Ind., Nov. 29.—Petroleum
has been found near here in small quan-
tities though the drillers are only a short
distance from Trenton rock. Seven wells
have been drilled in Wabash county in
the last six weeks, and this is the first
strike. The hole is 1,100 feet deep, and
will go deeper.Killed a Wolf.
KOKOMO, Ind., Nov. 29.—Late Hos-
tetter and Garfield Hoffman of South
Kokomo killed a wolf within the cor-
porate limits of the city Saturday.
The wolf, which measures over six feet from
tip to tip, was lying asleep under a rail-
road bridge when the men shot it.Store Pillaged and Fired.
WEST MIDDLETON, Ind., Nov. 29.—
The general store of S. C. Bowen was
destroyed by fire. The Cloverleaf rail-
road office was in the building. Loss on
merchandise, \$1,600; on building, owned
by Dimmitt & Bowen, \$600. Thieves
had pillaged the store, then set fire to it.Sawyer's Body Cut In Two.
FRANKFORT, Ind., Nov. 29.—Walter
Moore, a sawyer at Reagan Mills, seven
miles south of this city, was instantly
killed. The saw burst and cut his body
in two.Instantly Killed.
FORT WAYNE, Nov. 29.—William
Kreider, while cutting timber on his
farm south of this city Saturday after-
noon, was struck by a falling tree and
instantly killed.Knights of Pythias.
OAKLAND CITY, Ind., Nov. 29.—The
annual meeting of the Knights of Pyth-
ias of the Twentieth district will be held
here next Wednesday.

MYSTERY EXPLAINED.

The Missing Mrs. Merry Was Murdered
by Her Husband.CHICAGO, Nov. 29.—The mystery sur-
rounding the disappearance of Mrs.
Pauline Merry from her home in this
city was solved yesterday afternoon by
the confession of Thomas Hickey, a re-
volting story of how Christopher Merry
choked and beat his wife a week ago
last Friday. Then finding it impossible
to restore his wife to consciousness,
Hickey says that Merry decided to put
her "out of her misery" by beating out
her brains with a poker. Hickey was
present when Merry killed his wife.
The horrible story told by Hickey was
extorted from him after hours of ques-
tioning in the "sweatbox." He led a
party of police to an uninhabited por-
tion of the city, where Mrs. Merry's
body was found buried beneath a few
inches of loose dirt by the roadside.
Merry has so far eluded the police.

BOILER EXPLOSION.

One Man Killed and Five Others Ser-
iously Injured.PITTSBURGH, Nov. 29.—One man was
killed and five others seriously injured
last evening, the result of a boiler ex-
plosion at the old Moorhead and McLean
blast furnace, operated by Laughlin &
Co. The dead:
JOHN MULLER.
Injured:
Seaford Armes, fireman.
John Pierpont.
John Karsky.
William McCarthy, fireman, and a col-
ored man, name not known.
Mullen died shortly after the accident
after suffering intense agony. His body
was literally cooked by the escaping
steam. Armes' face, arms and legs are
badly scalded. His condition is critical.
The others will recover. The cause of
the explosion is a mystery.

CHINESE SCHOOL.

One to Be Established in San Francisco
By Aid of the Empire.SAN FRANCISCO, Nov. 29.—One of the
most important movements, originating
with the new Chinese minister, W. U.
Ting Fang, to bring into closer relations
the whole people and the people of his
own race, is shortly to be consummated
in this city. This project contemplates
the erection of a school building, the
bringing of a corps of teachers from
China and the education of the Chinese
youth of this city and coast in both
English and Chinese branches. The
Chinese government is preparing to ex-
pend not less than \$40,000 in carrying
out this project and providing for the
permanent maintenance of the school.
Tuition will be strictly free, but a small
charge will be made for instruction in
special branches.

CAUGHT A SEA TURTLE.

First of the Kind Ever Captured in the
Great Lakes.CHICAGO, Nov. 29.—Three fishermen
caught a huge sea turtle in Lake Mich-
igan off the foot of Randolph street. Its
weight is estimated at 300 to 500 pounds.
The men were out in a rowboat near the
mouth of the river on their way to fish
between the breakwater and the basin,
when they saw the turtle. A strong
perch gill net was put out, and the tur-
tle was entangled in it and began a
battle which lasted two hours. The
fisherman had a pike pole, and repeat-
edly struck the turtle on the head until
it swammed. It took eight men to lift
the turtle out of the water by means of
ropes tied around its flippers. The tur-
tle is apparently of the deep-sea kind,
but it is the first ever known to be
caught in the great lakes.

PHALEN WITHDRAWS.

Adolph Lugert's Attorney Throws Up
the Duff of the Sausagemaker.CHICAGO, Nov. 29.—Attorney Albert
Phalen, who became prominent through
his connection with the defense of
Adolph Lugert, and who was to have
been chief counsel for the sausage maker
in his second trial, withdrew from the
case yesterday. His withdrawal was
due to the retention of Attorneys Har-
mon and Riese as assistants in the case,
contrary to his advice. The case was
called before Judge Gary today. Attor-
neys Harmon and Riese announced the
retirement of Mr. Phalen and asked for
a further continuance on the ground
that they are not familiar with the case.

Steamer Ashore.

PEQUAMUNG, Mich., Nov. 29.—For
two and a half days the steamer H. E.
Runnels has been ashore on the end of
Point Abney, and yesterday the first
news reached this port, when the mate
and one sailor arrived to order help for
the steamer.

WHAT ALASKA NEEDS

Governor John G. Brady Gives an
Outline For Legislation.

DOESN'T FAVOR A TERRITORY.

Thinks the Country Will Be Great In
Agriculture—Twenty-Five Miners Re-
tusa to Seattle With Over \$200,000 in
Nuggets—Dawson City Has Starvation
Starting It In the Face.SEATTLE, Wash., Nov. 29.—In an in-
terview Governor John G. Brady of
Alaska said last night:"The business men and officials of
Alaska are concerned in effecting some
change or amplification of the laws as
they are at present in force."They will combine to submit to con-
gress a proposition to authorize the ap-
pointment of a committee which will
consider the needs of Alaska on that
ground. My idea is that the committee
should consist of a senator, a representa-
tive and three bonafide residents of
Alaska. If we are able to get a com-
mittee something may be accomplished
for the practical good of Alaska. Other-
wise, time devoted to Alaska will be
frittered away in the consideration of in-
dividual bills of no benefit to the coun-
try as a whole."Many think Alaska should have a ter-
ritorial form of government. The ob-
jections to this are manifold, chief
among them is the sparse population of
the country. A territory means taxa-
tion and the people are not there to be
taxed. It would be of little avail to sub-
mit to congress resolutions for a change
in the code now in existence. These
things must be investigated by a com-
mittee which can ascertain the needs of
the people by personal observations. We
want an extension of the land laws, the
status of the natives declared, the regu-
lation of the fish industry, the right of
appeal and laws for the preservation of
game."The smuggling evils must also be
dealt with by the committee. Last year
21,000 gallons of Canadian whiskey were
smuggled into Alaska."
Governor Brady thinks Alaska will be
as great an agricultural and farming
country some day, as a mining one.
His trip to this city is on private busi-
ness. He will not go to Washington to
attend the coming session of congress
as has been reported.

FROM DAWSON CITY.

Twenty-Five Miners Arrive at Seattle
With \$200,000 in Nuggets.SEATTLE, Wash., Nov. 29.—Twenty-
five men arrived here last night on the
City of Seattle direct from Dawson City.
They were divided into two parties, the
last one of which left Dawson Oct. 16.
They are reported to have between them
\$60,000 in drafts and \$200,000 in gold
dust.All tell stories of a food shortage in
Dawson that is almost a famine. The
last person to leave Dawson was Jack
Dalton. When Dalton left the steamers
Alice and Bella had reached there loaded
light. It is said that the Stella's cargo
consisted of whiskey and billiard balls.
She brought no provisions. The Cana-
dian government mounted police char-
tered the Bella and gave all who wished
a free pass to the Yukon. The Bella is
reported to have left about Oct 12 with
100 men. According to statements
made by members of the Dalton party,
there is liable to be trouble of the most
serious kind this winter in Dawson.
Billy Leak told one of the men in a
party ahead of him, whom he met at
Dyea, that all the people talk about at
Dawson was the food famine. Men
were gathering in groups and cursing
with might and main the newcomers
who were constantly coming into the
Klondike loaded with scarcely any pro-
visions.John W. Brauer, the United States
mail carrier, who left Dawson Sept. 27,
said: "There is only one salvation for
the miners who are now at Dawson
City and that is for them to undertake
the awful winter trip from Dawson to
Fort Yukon, a distance of 400 miles.
There is food at Fort Yukon, there is
none at Dawson, and just as sure as
the stars shine, terrible suffering will
be the fate of the Dawson miner unless
he leaves there before Spring. I will
make my statement that when I left
Dawson the men who were there had
on an average four months' food supply.
Some had not a month's supply, some
had four or five. The restaurant
closed the night I left. It had been
selling nothing but beefsteak for which
the hungry paid \$2.50.

General Miles' Recommendation.

PORT TOWNSEND, Wash., Nov. 29.—
A telegram received here from Wash-
ington states that Major Nelson A.
Miles has transmitted to the secretary
of war a letter in which he recommends
that Port Townsend be occupied by
troops immediately.

Illness Not Serious.

NEW YORK, Nov. 29.—John C. Shee-
han, the Tammany leader, was resting
easily at his home in this city last night.
The attending physicians said that Mr.
Sheehan only needed a few days rest,
when he would be all right, as his ill-
ness is not at all serious.

Settlement Made.

DANVILLE, Ills., Nov. 29.—Carrie Cor-
bett, who recently obtained a \$4,000
verdict in a breach of promise suit
against John Gernand, discharged her
lawyers Saturday. She and Gernand
have made a settlement.

ern Union Telegraph company, is dead
at his home in Englewood, N. J., aged
46 years.

SEWERPIPE POOL

Manufacturers Will Meet in Cleveland
Tomorrow to Perfect Organization.CLEVELAND, Nov. 29.—A meeting of
sewerpipe manufacturers will be held
here tomorrow to complete the organiza-
tion of the pool, toward the formation
of which the preliminary steps were
taken a few days since at East Liver-
pool. It is now announced that J. Pier-
pont Morgan will have nothing to do
with the organization, but that it will
be controlled by the pipe manufacturers
themselves.

College Professor Shot.

RUSSELLVILLE, Ky., Nov. 29.—Prof-
essor James H. Fuqua was accidentally
shot Saturday afternoon while out
hunting by H. M. Roberts. The shot
took effect in the face and breast. One
eye is lost and one hand badly damaged.
He is vice president of the new Fuqua
college of this city.

Well Known Manufacturer Suicides.

WORCESTER, Mass., Nov. 29.—Charles
C. McCloud, a screw manufacturer,
will known all over the country, is dead
at the city hospital from a self-inflicted
wound. He cut his throat Friday night
with suicidal intent.

Will Be Sold at Auction.

DETROIT, Nov. 29.—The Detroit cham-
ber of commerce building will be sold
under the hammer in default of pay-
ment of a first mortgage of \$400,000
held by the New York Life Insurance
company and interest.

and his stepmother. He died in five hours
after the ceremony.A woman's greatest mission in this world
is to help baby. Teaching baby to eat, and
to walk and to talk. A rightly constituted
woman finds in these her happiest employ-
ment. Too many women miss this happi-
ness because of their own ignorance or neg-
lect. No woman should be ignorant of her
own physical make-up. No woman has the
right to neglect the health of those delicate
organs of her body upon which depends the
life and health and happiness of her chil-
dren. The Mosaic command to "increase
and multiply" was no idle, thoughtless
edict. It was the command of Jehovah.
The woman who annuls it by neglect of her
womanly health commits a crime.The best medicine for women is Doctor
Pierce's Favorite Prescription. It makes a
woman capable of performing her duty so-
berly, herself, her husband, her children and man-
kind. It acts directly upon the organs dis-
tinctly feminine and makes them strong and
vigorous. It does away with the discom-
forts of the period preceding motherhood.
It makes baby's advent easy and almost
painless. It cures all weakness and disease
of the distinctly feminine organism.In a family of parents and children there is
much care, many worries, numerous perplexities.
But, if sickness comes, everything else is small
beside it. How valuable then is a doctor in the
same block, or an experienced neighbor next
door. How much more comfortable for all con-
cerned is a standard medical book on the table or
the bookshelf. It is less expensive than the doc-
tor, probably more reliable than the experienced
neighbor. Dr. Pierce's Common Sense Medical
Adviser is the best thing of this sort ever pub-
lished. It contains 1,000 pages of plain talk, and
full illustrations. Most of the pictures are
colored and true to nature. Nearly 100 pages
are devoted to the diseases of women. There are
prescriptions for their cure at home. Send six
cent stamps, to cover the cost of mailing only,
and get this book free in strong manilla cover.

MESSAGE ON MONEY

President McKinley Opposed to
Gold Bond Legislation.

HE HAS BIMETALLIC HOPES.

Single Standard People Will Endeavor to
Change His Views—Talks Freely to
Senators and Representatives on the
Money Question—Postal Savings Banks
Indorsements.WASHINGTON, Nov. 29.—Great inter-
est has been aroused in that part of the
president's message relating to the
money question. It has been made
known that the president does not think
best to recommend to congress legisla-
tion authorizing gold bonds. Intima-
tion is also given of an intention to hold
out hope of ultimate success for inter-
national bimetallicism, and to advise con-
tinued efforts in that direction. Infor-
mation of the president's position did
not become general until late Saturday.
Telegrams have been received inquiring
as to the reliability of the statements.
Positive confirmation is given. There
is no concealment of the president's in-
clination. Friends of Secretary Gage
say that he has tried to bring the presi-
dent to his way of thinking, but has
been unable to get him to recommend
gold bonds.A movement has been started among
the believers in the single standard to
urge the president, by personal visits
and by telegrams, to abandon the effort
for international bimetallicism, and to call
on congress for gold bonds. This will
inspire the double standard people,
the Republican friends of silver, to do
all they can to encourage the president
in his present intentions.
To senators and representatives here
the president has talked freely on the
money question, and has asked as to the
state of sentiment in various parts of
the country on gold bonds and on inter-
national bimetallicism. He is always
open to public opinion, and it may be
that the message as it finally goes to
congress will differ somewhat from the
present design in two respects. There
is no doubt, however, that up to this
time Secretary Gage's advice for gold
bonds has been disregarded.

UNCLE SAM WANTS TO KNOW.

Ambassador White to Question Germany
Regarding Her Designs on Hayti.BERLIN, Nov. 29.—The state depart-
ment at Washington has requested
United States Ambassador White to as-
certain exactly the intentions of Ger-
many with respect to the claims of Herr
Lueders, whose recent imprisonment in
Hayti has caused friction between the
German and Haytian governments. Mr.
White has also been instructed, if
any schemes of annexation exist or if
there is an intention to make an ex-
cessive demonstration with a view of un-
duly punishing Hayti, to intimate to
the German government that the United
States could not tolerate either of the
courses before mentioned, though in
principle having no objection to Ger-
many obtaining satisfaction.

Postal Savings Banks.

WASHINGTON, Nov. 29.—Postmaster
General Gary is receiving much encour-
agement in his efforts to secure action
by congress authorizing the establish-
ment of postal savings banks. Every
day in his mail there are many letters
indorsing the proposition. The indorse-
ments come from all sections of the
country, and from all classes of citi-
zens. Postal savings banks were first
recommended by a postmaster general
in 1872, since which time they have
been recommended by nearly every pos-
tmaster general.

WON A HORSE RACE.

Story of President McKinley at the
Youngstown Fair.KANSAS CITY, Nov. 29.—John Boise,
who went to Topeka from Ohio 40 years
ago, tells this story on President McKin-
ley: "I have known William McKinley
since he was a small boy. He won a
horse race for me at Youngstown when
he was only 14 years old. At that time
I was dealing a little in fast horses, and
had a runner at the Youngstown fair. I
offered young McKinley \$1 to ride my
horse and promised to give him \$5 if he
won the race. The boy was willing to
ride, but before he would do so he
went to his father and asked permis-
sion. The father said he could do as he
pleased, and so he

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nervine and Liver Pills and Nervine. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

Telephone No. 42.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

MONDAY, NOVEMBER 29, 1897.

A PLURALITY of over 85,000 in Massachusetts does very well for an off year.

The solution of the Cuban question does not call for jingoism on the part of the United States, but a high order of statesmanship and diplomacy.

The indeterminate sentence law has been questioned as to its validity since it was passed. Judge McGregor, of the Putnam circuit court, instructed a jury under the old law declining to recognize the new one.

Most men are at work in Indiana gas belt plants to-day than at any time before, and their wages aggregate a larger sum than at any time in the past. With possibly three exceptions there has been no reduction in wages. There are many companies who have voluntarily increased wages from 2 to 15 per cent.—"Iron Age," November 18, 1897.

MEXICAN MONEY VALUE.

E. W. Shepard, of this city, has just received a letter from his brother who is in Mexico. He is a carpenter and works at his trade, now being employed at Malacatan. He is a close observer and studies carefully the conditions existing in Mexico. In speaking of Mexico as a silver country he says: "I should like to have W. J. Bryan down here for a few months and then see if he would contend that the United States ought to be on a silver basis. It now takes \$280 of Mexican money to equal \$100 of United States money."

Mr. Bryan may get hold of some of this valuable information yet if he makes that contemplated invasion into Mexico and meets with such Americans as Mr. Shepard.

WAGES have advanced 10 per cent in the Michigan iron mines.

The governor should be fully assured that the present law is inadequate to protect the natural gas interests of Indiana before deciding to call an extra session of the legislature. It is evident that there is no more law than is enforced.

The announcement by Congressman Griffith of the appointment of his private secretary comes as a great disappointment to a number of young men over the district. One of the disappointed resides here, but he was told by the REPUBLICAN some time ago that the appointment would go to Jefferson county.

Some of the features of the immigration bill which Senator Fairbanks has prepared and will introduce in the senate have been given out and meet with favor generally. It will not meet with such opposition from intelligent foreign-born citizens as did the bill a year ago. Its central feature is the educational test, and is said to be absolutely ineffective to that class of foreigners who make desirable citizens. Senator Fairbanks is assured of the cordial support of the German population and the German press, also the industrial classes. He thinks the measure will pass both branches of congress without much delay.

POLITICAL BREVITIES.

Congressman Griffith has appointed C. R. Melcher as his private secretary according to a pre-election agreement.

Francis T. Root, of Connersville, is intended as a probable candidate for secretary of state before the next republican state convention.

It is said that N. H. Mottisinger, the banker, real estate agent, school supply man and populist editor will again be a candidate for congress in the second district.

The Columbia Club, of Indianapolis has decided to erect a new building costing about \$80,000. The membership of the club will be increased from 400 to 650, including some prominent republicans from all parts of the state.

Free Pills.

Lend your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by W. F. Petet, druggist.

S. I. P. A.

A majority of the members of the executive committee of the Southern Indiana Press Association met at Louisville Saturday evening to decide upon the time and place of the next meeting of the association. They decided on January 18, as the date and Indianapolis as the place of meeting. The program will be arranged and announced later. It will be strictly a business session.

An Opportunity You Now Have.

NAVAL CONSTRUCTION.

High Engine and Fire Room Temperatures on a Warship.

The great internal heat that rendered the Amphitrite inefficient was due to lack of provision for ventilation in the engine and boiler spaces. These regions became so hot that little useful work could be done in them, and the lack of air was such as to actually ruin the furnace draft, smoke coming out freely from the holes in the furnace doors. Aside from two small ash hoist tubes in the central part of the fireroom and a small escape hatch forward, there were no openings from the fireroom to the outer air.

The boilers reached nearly to the iron main deck of the vessel, and as the air above them and between the deck beams had no escape it became greatly heated and lay roasting in those spaces. It was impossible for a man to go on the gratings behind the upper parts of the boilers after they had been under steam a few hours, though the main and auxiliary stop valves were there. A board of officers that reported on temperatures in the vessel got at this place only by introducing a thermometer on the end of a long pole, and this thermometer, when fished out and taken to a place where it could be read, showed 202 degrees.

The superstructure containing the cabin and wardroom was directly above the engine and boiler rooms, with a light wooden floor laid over the iron main deck. At sea, with the doors closed, this habitation became exactly like a frying pan on a hot stove lid. The smoke pipe, partly uncovered for alleged ventilating purposes, passed through the center of the wardroom and by vigorous radiation contributed its full share to the general discomfort. The deck, in spite of its wooden sheathing, was so hot as to be painful, and I hesitate to say from memory the temperatures the board reported as being usual in the rooms, in bureau drawers, on the wardroom table and in other parts of the officers' quarters. It was as high as 112 degrees, and I think greater. Sleep was only a period of unconsciousness, induced by utter exhaustion, and was without restful quality.

The fireroom temperature was never below 150 degrees and often above 170, while the engine room ranged closely about 150 degrees. For the first 24 hours the men stood it well, but on the second day seven succumbed to the heat and were put on the sick list, one of them nearly dying. Before the voyage was ended 28 had been driven to seek medical attendance.

On the evening of the fourth day out our men had literally fought with fire to a finish and had been vanquished. The watch on duty broke down one by one and the engines, after lumbering along slower and slower, actually stopped for lack of steam. The ship was allowed to drift inshore on the tide and was finally brought to an anchor in St. Simon's sound. Though a warship of formidable characteristics and sent on this distant service, it is doubtful if the Amphitrite could have gone into action at that time or have steamed 100 miles farther to save herself.—F. M. Bennett, U. S. N., in Cassier's Magazine.

HORRIBLE STORY.

Two Washingtonians Killed in the Congo State—Bodies Mutilated.

WASHINGTON, Nov. 29.—A startling and horrible story of the killing of two Washingtonians and the mutilation of their bodies by the natives of the Congo Free state has just been received here in a letter to Mr. Leo Harbison. The men were members of a party who, during November and December, 1894 and January, 1895, went from this city to enlist in the Belgian army for service in the Congo state. In the party were Lindsay G. Burke and a Mr. Mellin, who was at one time a non-commissioned officer of the United States army.

The information received by Mr. Harbison is that Burke and a party of 50 natives, who were sent out to dislodge a band of dwarfs who had revolted, were ambushed and killed. An Arab who escaped states that the most hideous looking little man he ever saw walked up and cut Burke's head off with one blow of a knife. The chief then began to slice pieces off his legs and arms and to distribute them among his followers.

The other Washingtonian was Mellin, who, with a number of other officers, were assassinated near Kabanbarre, during a revolt. The body of Mellin was butchered almost beyond recognition, his heart having been cut out and burned so that his courage could not again be used against the rebels by the whites. It is their belief that unless the heart is burned and the ashes scattered to the four winds the spirit of the man descends to his brethren.

The Surprise of All.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

THROUGH A TRESTLE.

Twenty-three Cars Precipitated Sixty-five Feet—Two Killed.
WINCHESTER, Ky., Nov. 29.—As a heavy freight train on the Kentucky Central branch of the Louisville and Nashville road was passing over a wooden trestle spanning a deep ravine late Saturday the structure gave way, precipitating 23 coal laden cars to the rocks, 65 feet below. The engine and tender passed over safely. A number of bridge carpenters were at work at the bottom of the trestle when it fell. Most of them made their escape. James Harris and Warren Burch, however, were instantly killed. Their bodies were buried under hundreds of tons of coal, lumber and other freight.

NEW TRUNK LINE.

Vanderbilts to Invade the Pennsylvania Company's Territory.
CHICAGO, Nov. 29.—John Jacob Astor and a distinguished party of eastern capitalists and railroad magnates are in this city to take steps for welding several short lines of western roads into a new trunk line from Chicago to New York. The new route is to find its terminals over the Nickel Plate and the Illinois Central. It is but another giant link in the Vanderbilt trunk line system, having for its special purpose an invasion of the Pennsylvania road's Ohio and Indiana territory.

HORRIBLE CRIME.

Man Murdered and Robbed and His Wife Outraged.
LITTLE ROCK, Ark., Nov. 29.—On a large cotton plantation in St. Francis county, eight negroes went to the home of Joe Miller, a cottonpicker, and after robbing him of his savings, dragged him from bed and murdered him. The body was thrown in the river. Ada Miller, the murdered man's wife, was then outraged and the house looted. William Williams was arrested and made a full confession implicating seven others, four of whom have also been jailed.

SHRINER INJURED.

Benjamin H. Dudley Severely Hurt During an Initiation.
LOUISVILLE, Nov. 29.—Benjamin H. Dudley, contracting agent of the White Line Central Transit company, was seriously injured while attending an initiation of Congressman Evans by the Mystic Shriners. He was taken to the home of James McFarlan. Physicians were called and it was necessary to perform a delicate operation. Mr. Dudley had assisted in the initiation ceremonies, following which he engaged in a playful "side degree" with some of the members.

WEAPON HELD FIRE.

Little Boy Looked Into the Barrel and Was Killed.
KENT, O., Nov. 29.—Ernest Nash, aged 8 found an old musket. He called his three little brothers and sister, laid the weapon across a chair, and said: "Now watch me kill a rabbit." He pulled the trigger, it held fire, he looked into the barrel to see what was wrong, the load entered his breast and he fell dead. The parents were absent at the time.

Christmas Ladies' Home Journal.

The Christmas Ladies' Home Journal opens with a page of pictures of beautiful children, selected from thousands of portraits. The children's holiday greeting is a pleasing introduction to the excellent articles pertaining to the great festival season. One of these interestingly describes Christmas in the Palace at Potsdam, telling how the German Emperor and Empress and royal children celebrate the day. There are also two admirable short stories, "Christmas at the Hollyhocks," and "Christmas at the Trimbles."

A feature that will arouse widespread interest is the first letter of a series giving "The Inner Experiences of a Cabinet Member's Wife." They present an inside view of Washington political and social life, as has never before been done in any magazine. The letters will occasion much surprise. A reading of the first installment makes obvious the reason for withholding the writer's name.

COURT NOTES.

Judge S. B. Voyles spent some time in the city Saturday evening and left for his home at Salem by way of the B. & O. S. W. Today he begins court at Corydon. On Monday morning next he will open our court and will hand down opinions on several cases tried and under advisement.

DIED.

The infant son of Will Abbott died Sunday night November 28, 1897, aged one day.

Ralph, two and one-half year old son of Oscar Ruddick, east of Newry, died at 9 o'clock, Saturday night, November 27, 1897, with diphtheria after a brief illness.

CHURCH NOTES.

Rev. John Asher, of Malissa, preached for the United Brethren congregation at Medora Sunday.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. The children may get sick when we can not get the doctor quick enough. It's the medicine you sell for croup.' He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store." For sale by C. W. Milhous.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

"We know of no review published, in this country or in Europe, which combines so successfully as the AMERICAN MONTHLY the alertness, timeliness, and energy of journalism with the sound judgment, carefully weighed opinion, exact knowledge, and well-chosen English of the purely literary periodical."—The Outlook.

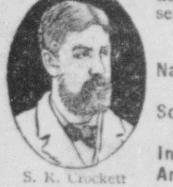

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Headache and Neuralgia cured by Dr. MILES' PAIN PILLS. "One cent a dose."

Topics of the Day.

The pre-eminent topic of the day at this season of the year is Christmas; Christmas festivities, Christmas legends, customs, and symbols. The leading article of the December number of Demorest's tells the story of "Christmas Chimes all over the World." The story is told from the standpoint of human interest, and is illustrated with eleven fine pictures of the homes of the most famous bells.

The material of the body of the magazine is of varied and widespread interest. The home maker will find a field for profitable study in an article giving reliable information on the making of "Oriental Cozy Corners," illustrated in a most picturesque fashion.

The Fashion Department in the December Demorest's is the most complete published in any family magazine. Forty-two patterns are given of the latest winter styles.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passages is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble.

The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee effectiveness of this advice.

How the Bible Came Down to Us is the title of an article by Dr. Clifton H. Levy in the December number of the American Monthly Review of Reviews.

Dr. Levy traces the history of the history of the various versions of the Scriptures, presenting photographic reproductions of portions of the most celebrated manuscripts and printed texts.

In view of the recent revival of interest in biblical discovery and textual criticism, this attempt to give a popular exposition of the subject will doubtless be warmly welcome.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

Prof. J. F. Baird, of Charlestown came here this forenoon to join his wife who is the guest of her aunt Mrs. Mary Marsh.

The 1898 meeting will be held at Crothersville June 15 and 16.

Don't bolt your food, it irritates your stomach. Choose digestible food and chew it. Indigestion is a dangerous sickness. Proper care prevents it. Shaker's Digestive Cordial cures it. That is the long and short of indigestion. Now, the question is: Have you got indigestion? Yes, if you have pain or discomfort after eating, headache, dizziness, nausea, offensive breath, heartburn, languor, weakness, fever, jaundice, flatulence, loss of appetite, irritability, constipation etc. Yes, you have indigestion. To cure it, take Shaker's Digestive Cordial. The medicinal herbs and plants of which Shaker's Digestive Cordial is composed, help to digest the food in your stomach, help to strengthen your stomach. When your stomach is strong, care will keep you healthy. Shaker's Digestive Cordial is for sale by druggists, price 10 cents to \$1.00 per bottle.

Business Portion of Farmland Swept by Fire.

LEGISLATURE WILL NOT MEET.

Judge McGregor Ignores the Indeterminate Sentence Law—Store Pillaged and Burned—Two Counterfeiters Given Five Years by the Federal Court—Instantly Killed by a Tree.

FARMLAND, Ind., Nov. 29.—Fire broke out early this morning in the heart of this little city and the entire business portion is destroyed and the loss is terrible. Muncie was called on for help and responded, but the fire had gained such headway that it was almost impossible to check it. The fire started in the rear of Bob Meeks' drugstore. It was destroyed with G. B. Watson's grocery, Branson's hardware store and J. D. Davis' big general store. The new opera house, postoffice and Big Four depot were all consumed. Farmland has 9,500 people with only a hand chemical engine as protection from fire.

MAN HATE'S WILL.
She Desires That None but Women Shall Bury Her.

KOKOMO, Ind., Nov. 29.—Near the Howard and Tipton county (Ind.) line there resides an irreconcilable man hater. She is a spinster, leads a hermit life and for 40 years has not spoken to a man. She was disappointed in love. The woman has quite a sum of money secreted in her home. She is seldom seen in town and always does her trading with female clerks. She has made a will and explicit directions have been given that no man shall preach her funeral sermon nor act as a pallbearer. A woman shall drive the hearse, and women lower the body and fill the grave. No men are to be allowed in the funeral procession. She has willed a sum of money in trust to pay all expenses.

WILL NOT CALL ONE.

There Will Be No Special Session of the Legislature.
INDIANAPOLIS, Nov. 29.—Governor Mount has announced that he will not call a special session of the legislature to consider measures for the relief of the gas belt cities from the criminal waste of gas. The governor thinks that the laws already on the statute books have by no means been exhausted and until there are there is no necessity for such an extreme measure as has been sought by some of the mayors of the gas belt cities.

IGNORED BY THE JUDGE.

He Declines to Instruct a Jury Under the Indeterminate Law.
GREENCASTLE, Ind., Nov. 29.—Eugene Day, who was charged with cracking the safe of Charles A. Kelly's general store several weeks ago, was tried and given two years in the Indiana reformatory. Judge McGregor declined to instruct the jury under the indeterminate law, but instructed under the old law and the jury brought in its verdict accordingly, fixing the length of the sentence.

Died From Hydrophobia.
BOONVILLE, Ind., Nov. 29.—Young Barnett, who was bitten last June by a pet dog, is dead of hydrophobia. The wound apparently healed but 10 days ago the child, 12 years old, began to exhibit symptoms of the dread disease and rapidly grew worse and died late Saturday. For three days before death he suffered intensely, biting, barking and snapping like a dog.

Two Counterfeiters Sentenced.
INDIANAPOLIS, Nov. 29.—Heinrich A. Brown, the photographer of Valparaiso, and Theodore Hansen, two men whom the government regard as dangerous counterfeiters, were sentenced Saturday in the federal court to the Columbus (O.) prison for five years. They made a specialty of silver certificates, and their work was first class and very difficult of detection.

Old In Wabash County.
ROANS, Ind., Nov. 29.—Petroleum has been found near here in small quantities though the drillers are only a short distance in Trenton rock. Seven wells have been drilled in Wabash county in the last six weeks, and this is the first strike. The hole is 1,100 feet deep, and will go deeper.

Killed a Wolf.
KOKOMO, Ind., Nov. 29.—Late Hostetter and Garfield Hoffman of South Kokomo killed a wolf within the corporate limits of the city Saturday. The wolf, which measures over six feet from tip to tip, was lying asleep under a railroad bridge when the men shot it.

Store Pillaged and Fired.
WEST MIDDLETON, Ind., Nov. 29.—The general store of S. C. Bowen was destroyed by fire. The Cloverleaf railroad office was in the building. Loss on merchandise, \$1,600; on building, owned by Dimmitt & Bowen, \$600. Thieves had pillaged the store, then set fire to it.

Sawyer's Body Cut in Two.
FRANKFORT, Ind., Nov. 29.—Walter Moore, a sawyer at Reagan Mills, seven miles south of this city, was instantly killed. The saw burst and cut his body in two.

Instantly Killed.
FORT WAYNE, Nov. 29.—William Kreider, while cutting timber on his farm south of this city Saturday afternoon, was struck by a falling tree and instantly killed.

Knight of Pythias.
OAKLAND CITY, Ind., Nov. 29.—The annual meeting of the Knights of Pythias of the Twentieth district will be held here next Wednesday.

MYSTERY EXPLAINED.

The Missing Mrs. Merry Was Murdered by Her Husband.

CHICAGO, Nov. 29.—The mystery surrounding the disappearance of Mrs. Pauline Merry from her home in this city was solved yesterday afternoon by the confession of Thomas Hickey, arrested on suspicion. Hickey told a revolting story of how Christopher Merry choked and beat his wife a week ago last Friday. Then finding it impossible to restore his wife to consciousness, Hickey says that Merry decided to put her "out of her misery" by beating out her brains with a poker. Hickey was present when Merry killed his wife. The horrible story told by Hickey was extorted from him after hours of questioning in the "sweatbox." He led a party of police to an uninhabited portion of the city, where Mrs. Merry's body was found buried beneath a few inches of loose dirt by the roadside. Merry has so far eluded the police.

BOILER EXPLOSION.

One Man Killed and Five Others Seriously Injured.

PITTSBURGH, Nov. 29.—One man was killed and five others seriously injured last evening, the result of a boiler explosion at the old McLeod and McLean blast furnace, operated by Laughlin & Co. The dead: JOHN MULLEN, injured: Seaford Armes, fireman, John Pierpont, John Karney, William McCarthy, fireman, and a colored man, name not known. Mullen died shortly after the accident after suffering intense agony. His body was literally cooked by the escaping steam. Armes' face, arms and legs are badly scalded. His condition is critical. The others will recover. The cause of the explosion is a mystery.

CHINESE SCHOOL.

One to Be Established in San Francisco by Aid of the Empire.

SAN FRANCISCO, Nov. 29.—One of the most important movements, originating with the new Chinese minister, W. U. Ting Fang, to bring into closer relations the whole people and the people of his own race, is shortly to be consummated in this city. This project contemplates the erection of a school building, the bringing of a corps of teachers from China and the education of the Chinese youth of this city and coast in both English and Chinese branches. The Chinese government is preparing to expend not less than \$40,000 in carrying out this project and providing for the permanent maintenance of the school. Tuition will be strictly free, but a small charge will be made for instruction in special branches.

CAUGHT A SEA TURTLE.

First of the Kind Ever Captured in the Great Lakes.

CHICAGO, Nov. 29.—Three fishermen caught a huge sea turtle in Lake Michigan off the foot of Randolph street. Its weight is estimated at 300 to 500 pounds. The men were out in a rowboat near the mouth of the river on their way to fish between the breakwater and the basin, when they saw the turtle. A strong perch gill net was put out, and the turtle was entangled in it and began a battle which lasted two hours. The fishermen had a pike pole, and repeatedly struck the turtle on the head until it succumbed. It took eight men to lift the turtle out of the water by means of ropes tied around its flippers. The turtle is apparently of the deep-sea kind, but it is the first ever known to be caught in the great lakes.

PHALEN WITHDRAWS.

Adolph Luettgen's Attorney Throws Up the Defense of the Sausagemaker.

CHICAGO, Nov. 29.—Attorney Albert Phalen, who became prominent through his connection with the defense of Adolph Luettgen, and who was to have been chief counsel for the sausage maker in his second trial, withdrew from the case yesterday. His withdrawal was due to the retention of Attorneys Harmon and Riese as assistants in the case, contrary to his advice. The case was called before Judge Gary today. Attorneys Harmon and Riese announced the retirement of Mr. Phalen and asked for a further continuance on the ground that they are not familiar with the case.

Steamer Ashore.
PREGAMBLE, Mich., Nov. 29.—For two and a half days the steamer H. E. Runnels has been ashore on the end of Point Abayee, and yesterday the first news reached this port, when the mate and one sailor arrived to order help for the steamer.

WHAT ALASKA NEEDS

Governor John G. Brady Gives an Outline For Legislation.

DOESN'T FAVOR A TERRITORY.

Thinks the Country Will Be Great In Agriculture—Twenty-Five Miners Return to Seattle With Over \$200,000 In Nuggets—Dawson City Has Starvation Starting In Its Face.

SEATTLE, Wash., Nov. 29.—In an interview Governor John G. Brady of Alaska said last night: "The business men and officials of Alaska are concerned in effecting some change or amplification of the laws as they are at present in force."

"They will combine to submit to congress a proposition to authorize the appointment of a committee which will consider the needs of Alaska on that ground. My idea is that the committee should consist of a senator, a representative and three bonafide residents of Alaska. If we are able to get a committee something may be accomplished for the practical good of Alaska. Otherwise, time devoted to Alaska will be frittered away in the consideration of individual bills of no benefit to the country as a whole."

"Many think Alaska should have a territorial form of government. The objections to this are manifold, chief among them is the sparse population of the country. A territory means taxation and the people are not there to be taxed. It would be of little avail to submit to congress resolutions for a change in the code now in existence. These things must be investigated by a committee which can ascertain the needs of the people by personal observations. We want an extension of the land laws, the status of the natives declared, the regulation of the fish industry, the right of appeal and laws for the preservation of game."

"The smuggling evils must also be dealt with by the committee. Last year 21,000 gallons of Canadian whiskey were smuggled into Alaska."

Governor Brady thinks Alaska will be as great an agricultural and farming country some day, as a mining one. His trip to this city is on private business. He will not go to Washington to attend the coming session of congress as has been reported.

FROM DAWSON CITY.

Twenty-Five Miners Arrive at Seattle With \$200,000 In Nuggets.

SEATTLE, Wash., Nov. 29.—Twenty-five men arrived here last night on the City of Seattle direct from Dawson City. They were divided into two parties, the last one of which left Dawson Oct. 16. They are reported to have between them \$200,000 in drafts and \$300,000 in gold dust.

All tell stories of a food shortage in Dawson that is almost a famine. The last person to leave Dawson was Jack Dalton. When Dalton left the steamer Alice and Bella had reached there loaded light. It is said that the Stella's cargo consisted of whisky and billiard balls. She brought no provisions. The Canadian government mounted police chartered the Bella and gave all who wished a free pass to the Yukon. The Bella is reported to have left about Oct. 12 with 100 men. According to statements made by members of the Dalton party, there is liable to be trouble of the most serious kind this winter in Dawson.

Billy Leak told one of the men in a party ahead of him, whom he met at Dyea, that all the people talk about at Dawson was the food famine. Men were gathering in groups and cursing with might and main the newcomers that were constantly coming into the Klondike loaded with scarcely any provisions.

John W. Brauer, the United States mail carrier, who left Dawson Sept. 27, said: "There is only one salutation for the miners who are now at Dawson City and that is for them to undertake the awful winter trip from Dawson to Fort Yukon, a distance of 400 miles. There is food at Fort Yukon, there is none at Dawson, and just as sure as the stars shine, terrible suffering will be the fate of the Dawson miner unless he leaves there before Spring. I will make my statement that when I left Dawson the men who were there had on an average four months' food supply. Some had four or five. The restaurant closed the night I left. It had been selling nothing but beefsteak for which the hungry paid \$2.50."

BRIEF TELEGRAMS.

Natchez, Miss., has raised its shotgun yellow fever quarantine.

Colorado has begun the prosecution of retail dealers for selling oleomargarine and labeling it butter.

Millinery furnishing store of Apt. Bros. at Philadelphia was damaged \$75,000 by fire. The origin of the blaze is a mystery.

Frank Atkinson of Peoria and Thomas Beverly of Freeport, both life prisoners at Joliet, Ill., sent up in 1895 for murder, are dead.

The first and second class postal clerks of the country met in Pittsburgh and formed a national organization, looking to the betterment of their condition.

O. R. Shoemaker, a leading druggist of Coffeyville, Kan., was married on his deathbed to a young woman, who was falling into the hands of his divorced wife and his stepmother. He died in five hours after the ceremony.

A woman's greatest mission in this world is to help by. Teaching is to eat, and to walk and to talk. A rightly constituted woman finds in these her happiest employment. Too many women miss this happiness because of their own ignorance or neglect. No woman should be ignorant of her own physical make-up. No woman has the right to neglect the health of those delicate organs of her body upon which depends the life and health of all happiness of her children. The Mosaic command to "increase and multiply" was no idle, thoughtless edict. It was the command of Jehovah. The woman who annals it by neglect of her womanly health commits a crime.

The best medicine for women is Doctor Pierce's Favorite Prescription. It makes a woman capable of performing her duty to herself, her husband, her children and mankind. It acts directly upon the organs distinctly feminine and makes them strong and vigorous. It does away with the discomforts of the period preceding menarche. It makes baby's advent easy and almost painless. It cures all weakness and disease of the distinctly feminine organism.

In a family of parents and children there is much care, many worries, numerous perplexities. But, if sickness comes, everything else is small beside it. How valuable then is a doctor in the same block, or an experienced neighbor next door. How much more comfortable for all concerned is a standard medical book on the table or the bookshelf. It is less expensive than the doctor, probably more reliable than the experienced neighbor. Dr. Pierce's Common Sense Medical Adviser is the best thing of this sort ever published. It contains 1,200 pages of plain talk and careful illustrations. Many of the pictures are colored and true to nature. Nearly 100 pages are devoted to the diseases of women. There are prescriptions for their cure at home. Send 21 one-cent stamps, to cover the cost of mailing only, and get this book free in strong marbled cover, send 31 one-cent stamps and get it in beautiful, substantial, cloth binding. Address, World's Dispensary Medical Association, Buffalo, N. Y.

TO CHEAT THE GALLOWES.
Murderer Carr Swallows Found Glass With Suicidal Intent.

LIBERTY, Mo., Nov. 29.—In his cell in the county jail yesterday afternoon, William Carr, under sentence to be hanged next month for drowning his 3-year-old child in the Missouri river, tried to commit suicide by swallowing a quantity of pounded glass. Although two hypodermic injections were administered Carr failed to vomit the stuff, and it is not known yet what the result will be. The county physician thinks he will recover, because of his giant strength.

MESSAGE ON MONEY

President McKinley Opposed to Gold Bond Legislation.

HE HAS BIMETALLIC HOPES.

Single Standard People Will Endeavor to Change His Views—Talks Freely to Senators and Representatives on the Money Question—Postal Savings Banks Indorsements.

WASHINGTON, Nov. 29.—Great interest has been aroused in that part of the president's message relating to the money question. It has been made known that the president does not think best to recommend to congress legislation authorizing gold bonds. Intimation is also given of an intention to hold out hope of ultimate success for international bimetalism, and to advise continued efforts in that direction. Information of the president's position did not become general until late Saturday. Telegrams have been received inquiring as to the reliability of the statements. Positive confirmation is given. There is no concealment of the president's inclination. Friends of Secretary Gage say that he has tried to bring the president to his way of thinking, but has been unable to get him to recommend gold bonds.

A movement has been started among the believers in the single standard to urge the president, by personal visits and by telegrams, to abandon the effort for international bimetalism, and to call on congress for gold bonds. This will inspire the double standard people, the Republican friends of silver, to do all they can to encourage the president in his present intentions. To senators and representatives here the president has talked freely on the money question, and has asked as to the state of sentiment in various parts of the country on gold bonds and on international bimetalism. He is always open to public opinion, and it may be that the message as it finally goes to congress will differ somewhat from the present design in two respects. There is no doubt, however, that up to this time Secretary Gage's advice for gold bonds has been disregarded.

UNCLE SAM WANTS TO KNOW.

Ambassador White to Question Germany Regarding Her Designs on Hayti.

BERLIN, Nov. 29.—The state department at Washington has requested United States Ambassador White to ascertain exactly the intentions of Germany with respect to the claims of Herr Lueders, whose recent imprisonment in Hayti has caused friction between the German and Haytian governments. Mr. White has also been instructed, if any schemes of annexation exist or if there is an intention to make an excessive demonstration with a view of unduly punishing Hayti, to intimate to the German government that the United States could not tolerate either of the courses before mentioned, though in principle having no objection to Germany obtaining satisfaction.

Postal Savings Banks.

WASHINGTON, Nov. 29.—Postmaster General Gary is receiving much encouragement in his efforts to secure action by congress authorizing the establishment of postal savings banks. Every day in his mail there are many letters indorsing the proposition. The indorsements come from all sections of the country, and from all classes of citizens. Postal savings banks were first recommended by a postmaster general in 1872, since which time they have been recommended by nearly every postmaster general.

WON A HORSE RACE.

Story of President McKinley at the Youngstown Fair.

KANSAS CITY, Nov. 29.—John Boise, who went to Topeka from Ohio 40 years ago, tells this story on President McKinley: "I have known William McKinley since he was a small boy. He won a horse race for me at Youngstown when he was only 14 years old. At that time I was dealing a little in fast horses, and had a runner at the Youngstown fair. I offered young McKinley \$1 to ride my horse and promised to give him \$5 if he won the race. The boy was willing to ride, but before he would do so he went to his father and asked permission. The father said he could do as he pleased, and so he had accepted my offer. He won the race," said Mr. Boise in conclusion, "and he has won nearly every race he has entered since."

BURTON CONVICTED.

Story Finds Him Guilty of Murder in the First Degree.

GREENFIELD, Ind., Nov. 29.—The jury in the Barton case, after being out five hours, brought in a verdict of guilty of murder in first degree, with imprisonment for life. Burton shot Fireman Redmond in Indianapolis, while the latter was trying to capture him for attempting to rob an old man, named Job Eldridge. Three other were implicated, two of whom are in jail. Eldridge runs a second hand store in the capital city and was supposed to have quite a sum of money on hand.

TRAIN ROBBERS CAPTURED.

If Proven Guilty They Will Have to Answer with Their Lives.

ALBUQUERQUE, N. M., Nov. 29.—District Attorney Finch of this city has received a telegram from Dalm Graham, the constable at Bisbee, A. T., saying that he had apprehended three train robbers who held up the Santa Fe Pacific passenger train at Grant's some weeks ago. The prisoners are Jesse Williams, Tom Anderson and an unknown. The crime was committed in this territory and District Attorney Finch is now preparing the papers to have the robbers extradited. While the exact amount of the booty secured by these robbers is not known, it has been estimated between \$25,000 and \$100,000. Train robbery is a capital offense in New Mexico, so that if the men now arrested be proven guilty they will have to answer with their lives.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nervine. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

Dr. Miles' Nerve Restorer is sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address DR. MILES MEDICAL CO., Elkhart, Ind.

Telephone No. 42.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

MONDAY, NOVEMBER 29, 1897.

A PLURALITY of over 85,000 in Massachusetts does very well for an off year.

The solution of the Cuban question does not call for jingoism on the part of the United States, but a high order of statesmanship and diplomacy.

The indeterminate sentence law has been questioned as to its validity since it was passed. Judge McGregor, of the Putnam circuit court, instructed a jury under the old law declining to recognize the new one.

More men are at work in Indiana gas belt plants to-day than at any time before, and their wages aggregate a largesum than at any time in the past. With possibly three exceptions there has been no reduction in wages. There are many companies who have voluntarily increased wages from 2 to 15 per cent.—"Iron Age," November 18, 1897.

MEXICAN MONEY VALUE.

E. W. Shepard, of this city, has just received a letter from his brother who is in Mexico. He is a carpenter and works at his trade, now being employed at Malacatan. He is a close observer and studies carefully the conditions existing in Mexico. In speaking of Mexico as a silver country he says:

"I should like to have W. J. Bryan down here for a few months and then see if he would contend that the United States ought to be on a silver basis. It now takes \$280 of Mexican money to equal \$100 of United States money."

Mr. Bryan may get hold of some of this valuable information yet if he makes that contemplated invasion in Mexico and meets with such Americans as Mr. Shepard.

Wages have advanced 10 per cent in the Michigan iron mines.

The governor should be fully assured that the present law is inadequate to protect the natural gas interests of Indiana before deciding to call an extra session of the legislature. It is evident that there is no more law than is enforced.

The announcement by Congressman Griffith of the appointment of his private secretary comes as a great disappointment to a number of young men over the district. One of the disappointed resides here, but he was told by the REPUBLICAN some time ago that the appointment would go to Jefferson county.

Some of the features of the immigration bill which Senator Fairbanks has prepared and will introduce in the senate have been given out and meet with favor generally. It will not meet with such opposition from intelligent foreign-born citizens as did the bill a year ago. Its central feature is the educational test, and is said to be absolutely ineffective to that class of foreigners who make desirable citizens. Senator Fairbanks is assured of the cordial support of the German population and the German press, also the industrial classes. He thinks the measure will pass both branches of congress without much delay.

POLITICAL BREVITIES.

Congressman Griffith has appointed C. R. Melcher as his private secretary according to a pre-election agreement.

Francis T. Roots, of Connersville, is intended as a probable candidate for secretary of state before the next republican state convention.

It is said that N. H. Molsinger, the banker, real estate agent, school supply man and populist editor will again be a candidate for congress in the second district.

The Columbia Club, of Indianapolis has decided to erect a new building costing about \$80,000. The membership of the club will be increased from 400 to 650, including some prominent republicans from all parts of the state.

Free Pills.

Lend your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by W. F. Petet, druggist.

S. I. P. A.

A majority of the members of the executive committee of the Southern Indiana Press Association met at Louisville Saturday evening to decide upon the time and place of the next meeting of the association. They decided on January 18, as the date and Indianapolis as the place of meeting. The program will be arranged and announced later. It will be strictly a business session.

An Opportunity You Now Have.

NAVAL CONSTRUCTION.

High Engine and Fire Room Temperatures on a Warship.

The great internal heat that rendered the Amphitrite inefficient was due to lack of provision for ventilation in the engine and boiler spaces. These regions became so hot that little useful work could be done in them, and the lack of air was such as to actually ruin the furnace draft, smoke coming out freely from the holes in the furnace doors. Aside from two small ash hoist tubes in the central part of the fire room and a small escape hatch forward, there were no openings from the fire room to the outer air.

The boilers reached nearly to the iron main deck of the vessel, and as the air above them and between the deck beams had no escape it became greatly heated and lay roasting in those spaces. It was impossible for a man to go on the gratings behind the upper parts of the boilers after they had been under steam a few hours, though the main and auxiliary stop valves were there. A board of officers that reported on temperatures in the vessel got at this place only by introducing a thermometer on the end of a long pole, and this thermometer, when fished out and taken to a place where it could be read, showed 202 degrees.

The superstructure containing the cabin and wardrobe was directly above the engine and boiler rooms, with a light wooden floor laid over the iron main deck. At sea, with the doors closed, this habitation became exactly like a frying pan on a hot stove lid. The smoke pipe, partly uncovered for alleged ventilating purposes, passed through the center of the wardrobe and by vigorous radiation contributed its full share to the general discomfort. The deck, in spite of its wooden sheathing, was so hot as to be painful, and I hesitate to say from memory the temperatures the board reported as being usual in the rooms, in bureau drawers, on the wardrobe table and in other parts of the officers' quarters. It was as high as 112 degrees, and I think greater. Sleep was only a period of unconsciousness, induced by utter exhaustion, and was without restful quality.

The fire room temperature was never below 150 degrees and often above 170, while the engine room ranged closely about 150 degrees. For the first 24 hours the men stood it well, but on the second day seven succumbed to the heat and were put on the sick list, one of them nearly dying. Before the voyage was ended 28 had been driven to seek medical attendance.

On the evening of the fourth day out our men had literally fought with fire to a finish and had been vanquished. The watch on duty broke down one by one and the engines, after lumbering along slower and slower, actually stopped for lack of steam. The ship was allowed to drift inshore on the tide and was finally brought to an anchor in St. Simon's sound. Though a warship of formidable characteristics and sent on this distant service, it is doubtful if the Amphitrite could have gone into action at that time or have steamed 100 miles farther to save herself.—F. M. Bennett, U. S. N., in Cassier's Magazine.

Wanted Is This Thing.

"Hand over and be quick about it," said the "hold up" as he put a revolver to the head of the belated man. "But you held me up last week and didn't get anything," remonstrated the victim. "Well, hand over what I didn't get then!"—Detroit Free Press.

HORRIBLE STORY.

Two Washingtonians Killed in the Congo State—Bodies Mutilated.

WASHINGTON, Nov. 29.—A startling and horrible story of the killing of two Washingtonians and the mutilation of their bodies by the natives of the Congo Free state has just been received here in a letter to Mr. Leo Harbison. The men were members of a party who, during November and December, 1894 and January, 1895, went from this city to enlist in the Belgian army for service in the Congo state. In the party were Lindsay G. Burke and a Mr. Mellin, who was at one time a non-commissioned officer of the United States army.

The information received by Mr. Harbison is that Burke and a party of 50 natives, who were sent out to dislodge a band of dwarfs who had revolted, were ambushed and killed. An Arab who escaped states that the most hideous looking little man he ever saw walked up and cut Burke's head off with one blow of a knife. The chief then began to slice pieces off his legs and arms and to distribute them among his followers.

The other Washingtonian was Mellin, who, with a number of other officers, were assassinated near Kabanbarre, during a revolt. The body of Mellin was butchered almost beyond recognition, his heart having been cut out and burned so that his courage could not again be used against the rebels by the whites. It is their belief that unless the heart is burned and the ashes scattered to the four winds the spirit of the man descends to his brethren.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colic is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

THROUGH A TRESTLE.

Twenty-three Cars Precipitated Sixty-five Feet.—Two Killed. WINCHESTER, Ky., Nov. 29.—As a heavy freight train on the Kentucky Central branch of the Louisville and Nashville road was passing over a wooden trestle spanning a deep ravine late Saturday the structure gave way, precipitating 23 coal laden cars to the rocks, 65 feet below. The engine and tender passed over safely. A number of bridge carpenters were at work at the bottom of the trestle when it fell. Most of them made their escape. James Harris and Warren Burch, however, were instantly killed. Their bodies were buried under hundreds of tons of coal, lumber and other freight.

NEW TRUNK LINE.

Vanderbilt to Invade the Pennsylvania Company's Territory. CHICAGO, Nov. 29.—John Jacob Astor and a distinguished party of eastern capitalists and railroad magnates are in this city to take steps for welding several short lines of western roads into a new trunk line from Chicago to New York. The new route is to find its terminals over the Nickel Plate and the Illinois Central. It is but another giant link in the Vanderbilt trunk line system, having for its special purpose an invasion of the Pennsylvania road's Ohio and Indiana territory.

HORRIBLE CRIME.

Man Murdered and Robbed and His Wife Outraged. LITTLE ROCK, Ark., Nov. 29.—On a large cotton plantation in St. Francis county, eight negroes went to the home of Joe Miller, a cottonpicker, and after robbing him of his savings, dragged him from bed and murdered him. The body was thrown in the river. Ada Miller, the murdered man's wife, was then outraged and the house looted. William Williams was arrested and made a full confession implicating seven others, four of whom have also been jailed.

SHRINER INJURED.

Benjamin H. Dudley Severely Hurt During an Initiation. LOUISVILLE, Nov. 29.—Benjamin H. Dudley, contracting agent of the White Line Central Transit company, was seriously injured while attending an initiation of Congressman Evans by the Mystic Shriners. He was taken to the home of James McFarlan. Physicians were called and it was necessary to perform a delicate operation. Mr. Dudley had assisted in the initiation ceremonies, following which he engaged in a playful "side degree" with some of the members.

WEAPON HELD FIRE.

Little Boy Looked Into the Barrel and Was Killed. KENT, O., Nov. 29.—Ernest Nash, aged 8 found an old musket. He called his three little brothers and sister, laid the weapon across a chair, and said: "Now watch me kill a rabbit." He pulled the trigger, it held fire, he looked into the barrel to see what was wrong, the load entered his breast and he fell dead. The parents were absent at the time.

Catarrh Cannot be Cured With LOCAL APPLICATIONS, as they cannot reach the seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Christmas Ladies' Home Journal.

The Christmas Ladies' Home Journal opens with a page of pictures of beautiful children, selected from thousands of portraits. The children's holiday greeting is a pleasing introduction to the excellent articles pertaining to the great festive season. One of these interestingly describes Christmas in the Palace at Potsdam, telling how the German Emperor and Empress and royal children celebrate the day. There are also two admirable short stories, "Christmas at the Hollyhocks," and "Christmas at the Trimble's."

A feature that will arouse widespread interest is the first letter of a series giving "The Inner Experiences of a Cabinet Member's Wife." They present an inside view of Washington political and social life, as has never before been done in any magazine. The letters will occasion much surprise. A reading of the first installment makes obvious the reason for withholding the writer's name.

COURT NOTES.

Judge S. B. Voyles spent some time in the city Saturday evening and left for his home at Salem by way of the B. & O. S. W. Today he begins court at Corydon. On Monday morning next he will open our court and will hand down opinions on several cases tried and under advisement.

DIED.

The infant son of Will Abbott died Sunday night November 28, 1897, aged one day.

CHURCH NOTES.

Rev. John Asher, of Madison, preached for the United Brethren congregation at Medora Sunday.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. The children may get sick when we can not get the doctor quick enough. It's the medicine you sell for croup.' He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store." For sale by C. W. Milhous.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Topics of the Day.

The pre-eminent topic of the day at this season of the year is Christmas; Christmas festivities, Christmas legends, customs, and symbols. The leading article of the December number of Demorest's tells the story of "Christmas Chimes all over the World." The story is told from the standpoint of human interest, and is illustrated with eleven fine pictures of the homes of the most famous bells.

The material of the body of the magazine is of varied and widespread interest. The home maker will find a field for profitable study in an article giving reliable information on the making of "Oriental Cozy Corners," illustrated in a most picturesque fashion.

The Fashion Department in the December Demorest's is the most complete published in any family magazine. Forty-two patterns are given of the latest winter styles.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee effectiveness of this advice.

"How the Bible Came Down to Us" is the title of an article by Dr. Clifton H. Levy in the December number of the American Monthly Review of Reviews. Dr. Levy traces the history of the history of the various versions of the Scriptures, presenting photographic reproductions of portions of the most celebrated manuscripts and printed texts. In view of the recent revival of interest in biblical discovery and textual criticism, this attempt to give a popular exposition of the subject will doubtless be warmly welcome.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best? If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

Prof. J. F. Baird, of Charlestown came here this forenoon to join his wife who is the guest of her aunt Mrs. Mary Marsh.

John R. McLean's Newspaper.

Without a single exception, there is not a single newspaper in the United States that has more subscribers than the Cincinnati Enquirer; a more successful publisher than a proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and a circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: "The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford." The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

ALMOST DESTROYED

Business Portion of Farmland Swept by Fire.

LEGISLATURE WILL NOT MEET.

Judge McGregor Ignores the Indeterminate Sentence Law—Store Pillaged and Burned—Two Counterfeiters Given Five Years by the Federal Court—Instantly Killed by a Tree.

FARMLAND, Ind., Nov. 29.—Fire broke out early this morning in the heart of this little city and the entire business portion is destroyed and the loss is terrible. Muncie was called on for help and responded, but the fire had gained such headway that it was almost impossible to check it. The fire started in the rear of Bob Meeks' drugstore. It was destroyed with G. B. Watson's grocery, Branson's hardware store and J. D. Davis' big general store. The new opera house, postoffice and Big Four depot were all consumed. Farmland has 2,500 people with only a hand chemical engine as protection from fire.

MAN HATER'S WILL.

She Desires That None but Women Shall Bury Her.

KOKOMO, Ind., Nov. 29.—Near the Howard and Tipton county (Ind.) line there resides an irreconcilable man hater. She is a spinster, leads a hermit life and for 40 years has not spoken to a man. She was disappointed in love. The woman has quite a sum of money secreted in her home. She is seldom seen in town and always does her trading with female clerks. She has made a will and explicit directions have been given that no man shall preach her funeral sermon nor act as a pallbearer. A woman shall drive the hearse, and women lower the body and fill the grave. No men are to be allowed in the funeral procession. She has willed a sum of money in trust to pay all expenses.

WILL NOT CALL ONE.

There Will Be No Special Session of the Legislature.

INDIANAPOLIS, Nov. 29.—Governor Mount has announced that he will not call a special session of the legislature to consider measures for the relief of the gas belt cities from the criminal waste of gas. The governor thinks that the laws already on the statute books have by no means been exhausted and until they are there is no necessity for such an extreme measure as has been sought by some of the mayors of the gas belt cities.

IGNORED BY THE JUDGE.

He Declines to Instruct a Jury Under the Indeterminate Law.

GREENCASTLE, Ind., Nov. 29.—Eugene Day, who was charged with cracking the safe of Charles A. Kelly's general store several weeks ago, was tried and given two years in the Indiana reformatory. Judge McGregor declined to instruct the jury under the indeterminate law, but instructed under the old law and the jury brought in its verdict accordingly, fixing the length of the sentence.

Died From Hydrophobia.

BOONVILLE, Ind., Nov. 29.—Young Barnett, who was bitten last June by a pet dog, is dead of hydrophobia. The wound apparently healed but 10 days ago the child, 12 years old, began to exhibit symptoms of the dread disease and rapidly grew worse and died late Saturday. For three days before death he suffered intensely, biting, barking and snapping like a dog.

Two Counterfeiters Sentenced.

INDIANAPOLIS, Nov. 29.—Heinrich A. Brown, the photographer of Valparaiso, and Theodore Hansen, two men whom the government regard as dangerous counterfeiters, were sentenced Saturday in the federal court to the Columbus (O.) prison for five years. They made a specialty of silver certificates, and their work was first class and very difficult of detection.

Oil In Wabash County.

ROANS, Ind., Nov. 29.—Petroleum has been found near here in small quantities though the drillers are only a short distance in Trenton rock. Seven wells have been drilled in Wabash county in the last six weeks, and this is the first strike. The hole is 1,100 feet deep, and will go deeper.

Killed a Wolf.

KOKOMO, Ind., Nov. 29.—Late Hostetter and Garfield Hoffman of South Kokomo killed a wolf within the corporate limits of the city Saturday. The wolf, which measures over six feet from tip to tip, was lying asleep under a railroad bridge when the men shot it.

Store Pillaged and Fired.

WEST MIDDLETON, Ind., Nov. 29.—The general store of S. C. Bowen was destroyed by fire. The Cloverleaf railroad office was in the building. Loss on merchandise, \$1,600; on building, owned by Dimmitt & Bowen, \$600. Thieves had pillaged the store, then set fire to it.

Sawyer's Body Cut In Two.

FRANKFORT, Ind., Nov. 29.—Walter Moore, a sawyer at Reagan Mills, seven miles south of this city, was instantly killed. The saw burst and cut his body in two.

Instantly Killed.

FORT WAYNE, Nov. 29.—William Kreider, while cutting timber on his farm south of this city Saturday afternoon, was struck by a falling tree and instantly killed.

Knights of Pythias.

OAKLAND CITY, Ind., Nov. 29.—The annual meeting of the Knights of Pythias of the Twentieth district will be held here next Wednesday.

MYSTERY EXPLAINED.

The Missing Mrs. Merry Was Murdered by Her Husband.

CHICAGO, Nov. 29.—The mystery surrounding the disappearance of Mrs. Pauline Merry from her home in this city was solved yesterday afternoon by the confession of Thomas Hickey, arrested on suspicion. Hickey told a revolting story of how Christopher Merry choked and beat his wife a week ago last Friday. Then finding it impossible to restore his wife to consciousness, Hickey says that Merry decided to put her "out of her misery" by beating out her brains with a poker. Hickey was present when Merry killed his wife. The horrible story told by Hickey was extorted from him after hours of questioning in the "sweatbox." He led a party of police to an uninhabited portion of the city, where Mrs. Merry's body was found buried beneath a few inches of loose dirt by the roadside. Merry has so far eluded the police.

BOILER EXPLOSION.

One Man Killed and Five Others Seriously Injured.

PITTSBURG, Nov. 29.—One man was killed and five others seriously injured last evening, the result of a boiler explosion at the old Moorhead and McLean blast furnace, operated by Laughlin & Co. The dead: JOHN MULLEN, Injured: Seaford Ames, fireman, John Pierpont, John Karney, William McCarthy, fireman, and a colored man, name not known.

CHINESE SCHOOL.

One to Be Established in San Francisco by Aid of the Empire.

SAN FRANCISCO, Nov. 29.—One of the most important movements, originating with the new Chinese minister, W. U. Ting Fang, to bring into closer relations the whole people and the people of his own race, is shortly to be consummated in this city. This project contemplates the erection of a school building, the bringing of a corps of teachers from China and the education of the Chinese youth of this city and coast in both English and Chinese branches. The Chinese government is preparing to expend not less than \$40,000 in carrying out this project and providing for the permanent maintenance of the school. Tuition will be strictly free, but a small charge will be made for instruction in special branches.

CAUGHT A SEA TURTLE.

First of the Kind Ever Captured in the Great Lakes.

CHICAGO, Nov. 29.—Three fishermen caught a huge sea turtle in Lake Michigan off the foot of Randolph street. Its weight is estimated at 300 to 500 pounds. The men were out in a rowboat near the mouth of the river on their way to fish between the breakwater and the basin, when they saw the turtle. A strong perch gill net was put out, and the turtle was entangled in it and began a battle which lasted two hours. The fisherman had a pole pole, and repeatedly struck the turtle on the head until it succumbed. It took eight men to lift the turtle out of the water by means of ropes tied around its flippers. The turtle is apparently of the deep-sea kind, but it is the first ever known to be caught in the great lakes.

PHALEN WITHDRAWS.

Adolph Luertger's Attorney Throws Up the Defiance of the Sausagemaker.

CHICAGO, Nov. 29.—Attorney Albert Phalen, who became prominent through his connection with the defense of Adolph Luertger, and who was to have been chief counsel for the sausage maker in his second trial, withdrew from the case yesterday. His withdrawal was due to the retention of Attorneys Harmon and Riese as assistants in the case, contrary to his advice. The case was called before Judge Gary today. Attorneys Harmon and Riese announced the retirement of Mr. Phalen and asked for a further continuance on the ground that they are not familiar with the case.

STEAMER ASHORE.

PEQUAMUNG, Mich., Nov. 29.—For two and a half days the steamer H. E. Runnels has been ashore on the end of Point Abayre, and yesterday the first news reached this port, when the mate and one sailor arrived to order help for the steamer.

General Miles' Recommendation.

PORT TOWNSEND, Wash., Nov. 29.—A telegram received here from Washington states that Major Nelson A. Miles has transmitted to the secretary of war a letter in which he recommends that Port Townsend be occupied by troops immediately.

Illness Not Serious.

NEW YORK, Nov. 29.—John C. Sheehan, the Tammany leader, was resting easily at his home in this city last night. The attending physicians said that Mr. Sheehan only needed a few days rest, when he would be all right, as his illness is not at all serious.

Settlement Made.

DANVILLE, Ill., Nov. 29.—Carrie Corbett, who recently obtained a \$54,000 verdict in a breach of promise suit against John Gernand, discharged her lawyers Saturday. She and Gernand have made a settlement.

Treasurer of the Western Union Dead.

NEW YORK, Nov. 29.—L. Roswell Hart Rochester, treasurer of the Western Union Telegraph company, is dead at his home in Englewood, N. J., aged 46 years.

DOESN'T FAVOR A TERRITORY.

Thinks the Country Will Be Great In Agriculture—Twenty-Five Miners Return to Seattle With Over \$200,000 In Nuggets—Dawson City Has Starvation Starting It In the Face.

SEATTLE, Wash., Nov. 29.—In an interview Governor John G. Brady of Alaska said last night: "The business men and officials of Alaska are concerned in effecting some change or amplification of the laws as they are at present in force. "They will combine to submit to congress a proposition to authorize the appointment of a committee which will consider the needs of Alaska on that ground. My idea is that the committee should consist of a senator, a representative and three bona fide residents of Alaska. If we are able to get a committee something may be accomplished for the practical good of Alaska. Otherwise, time devoted to Alaska will be frittered away in the consideration of individual bills of no benefit to the country as a whole. "Many think Alaska should have a territorial form of government. The objections to this are manifold, chief among them is the sparse population of the country. A territory means taxation and the people are not there to be taxed. It would be of little avail to submit to congress resolutions for a change in the code now in existence. These things must be investigated by a committee which can ascertain the needs of the people by personal observations. We want an extension of the land laws, the status of the natives declared, the regulation of the fish industry, the right of appeal and laws for the preservation of game. "The smuggling evils must also be dealt with by the committee. Last year 21,000 gallons of Canadian whiskey were smuggled into Alaska. "Governor Brady thinks Alaska will be as great an agricultural and farming country some day, as a mining one. His trip to this city is on private business. He will not go to Washington to attend the coming session of congress as has been reported.

FROM DAWSON CITY.

Twenty-Five Miners Arrive at Seattle With \$200,000 In Nuggets.

SEATTLE, Wash., Nov. 29.—Twenty-five men arrived here last night on the City of Seattle direct from Dawson City. They were divided into two parties, the last one of which left Dawson Oct. 16. They are reported to have between them \$60,000 in drafts and \$200,000 in gold dust. All tell stories of a food shortage in Dawson that is almost a famine. The last person to leave Dawson was Jack Dalton. When Dalton left the steamers Alice and Bella had reached there loaded light. It is said that the Stella's cargo consisted of whisky and billiard balls. She brought no provisions. The Canadian government mounted police chartered the Bella and gave all who wished a free pass to the Yukon. The Bella is reported to have left about Oct 12 with 100 men. According to statements made by members of the Dalton party, there is liable to be trouble of the most serious kind this winter in Dawson. Billy Leak told one of the men in a party ahead of him, whom he met at Dyea, that all the people talk about at Dawson was the food famine. Men were gathering in groups and cursing with might and main the newcomers that were constantly coming into the Klondike loaded with scarcely any provisions. John W. Brauer, the United States mail carrier, who left Dawson Sept. 27, said: "There is only one salutation for the miners who are now at Dawson City and that is for them to undertake the awful winter trip from Dawson to Fort Yukon, a distance of 400 miles. There is food at Fort Yukon, there is none at Dawson, and just as sure as the stars shine, terrible suffering will be the fate of the Dawson miner unless he leaves there before Spring. I will make my statement that when I left Dawson the men who were there had on an average four months' food supply. Some did not have a month's supply, some had four or five. The restaurant closed the night I left. It had been selling nothing but beefsteak for which the hungry paid \$2.50.

Woman's greatest mission in this world is to help baby.

Teaching baby to eat, and to walk and to talk. A rightly constituted woman finds in these her happiest employments. Too many women miss this happiness because of their own ignorance or neglect. No woman should be ignorant of her own physical make-up. No woman has the right to neglect the health of those delicate organs of her body upon which depends the life and health and happiness of her children. The mosaic command to "increase and multiply" was no idle, thoughtless edict. It was the command of Jehovah. The woman who annals it by neglect of her womanly health commits a crime.

The best medicine for women is Doctor Pierce's Favorite Prescription. It makes a woman capable of performing her duty to herself, her husband, her children and mankind. It acts directly upon the organs distinctly feminine and makes them strong and vigorous. It does away with the discomforts of the period preceding motherhood. It makes baby's advent easy and almost painless. It cures all weakness and disease of the distinctly feminine organism.

In a family of parents and children there is much, many worries, numerous perplexities, but, if sickness comes, everything else is small beside it. How valuable then is a doctor in the same block, an experienced neighbor next door. How much more comfortable for all concerned is a standard medical book on the table or the bookshelf. It is less expensive than the doctor, probably more reliable than the experienced neighbor. Dr. Pierce's Common Sense Medical Adviser is the best thing of this sort ever published. MESSAGE ON MONEY

President McKinley Opposed to Gold Bond Legislation.

HE HAS BIMETALLIC HOPES.

Single Standard People Will Endeavor to Change His Views—Talks Freely to Senators and Representatives on the Money Question—Postal Savings Banks Indorsements.

WASHINGTON, Nov. 29.—Great interest has been aroused in that part of the president's message relating to the money question. It has been made known that the president does not think best to recommend to congress legislation authorizing gold bonds. Intimation is also given of an intention to hold out hope of ultimate success for international bimetalism, and to advise continued efforts in that direction. Information of the president's position did not become general until late Saturday. Telegrams have been received inquiring as to the reliability of the statements. Positive confirmation is given. There is no concealment of the president's inclination. Friends of Secretary Gage say that he has tried to bring the president to his way of thinking, but has been unable to get him to recommend gold bonds.

A movement has been started among the believers in the single standard to urge the president, by personal visits and by telegrams, to abandon the effort for international bimetalism, and to call on congress for gold bonds. This will inspire the double standard people, the Republican friends of silver, to do all they can to encourage the president in his present intentions. To senators and representatives here the president has talked freely on the money question, and has asked as to the state of sentiment in various parts of the country on gold bonds and on international bimetalism. He is always open to public opinion, and it may be that the message as it finally goes to congress will differ somewhat from the present design in two respects. There is no doubt, however, that up to this time Secretary Gage's advice for gold bonds has been disregarded.

UNCLE SAM WANTS TO KNOW.

Ambassador White to Question Germany Regarding Her Designs on Hayti.

BERLIN, Nov. 29.—The state department at Washington has requested United States Ambassador White to ascertain exactly the intentions of Germany with respect to the claims of Herr Lueders, whose recent imprisonment in Hayti has caused friction between the German and Haytian governments. Mr. White has also been instructed, if any schemes of annexation exist or if there is an intention to make an excessive demonstration with a view of unduly punishing Hayti, to intimate to the German government that the United States could not tolerate either of the courses before mentioned, though in principle having no objection to Germany obtaining satisfaction.

Postal Savings Banks.

WASHINGTON, Nov. 29.—Postmaster General Gary is receiving much encouragement in his efforts to secure action by congress authorizing the establishment of postal savings banks. Every day in his mail there are many letters indorsing the proposition. The indorsements come from all sections of the country, and from all classes of citizens. Postal savings banks were first recommended by a postmaster general in 1872, since which time they have been recommended by nearly every postmaster general.

WON A HORSE RACE.

Story of President McKinley at the Youngstown Fair.

KANSAS CITY, Nov. 29.—John Boise, who went to Topeka from Ohio 40 years ago, tells this story on President McKinley: "I have known William McKinley since he was a small boy. He won a horse race for me at Youngstown when he was only 14 years old. At that time I was dealing a little in fast horses, and had a runner at the Youngstown fair. I offered young McKinley \$1 to ride my horse and promised to give him \$5 if he won the race. The boy was willing to ride, but before he would do so he went to his father and asked permission. The father said he could do as he pleased, and so the lad accepted my offer. He won the race," said Mr. Boise in conclusion, "and he has won nearly every race he has entered since."

Murderer Carr Swallows Founding Glass With Suicidal Intent.

LIBERTY, Mo., Nov. 29.—In his cell in the county jail yesterday afternoon, William Carr, under sentence to be hanged next month for drowning his 3-year-old child in the Missouri river, tried to commit suicide by swallowing a quantity of pounded glass. Although two hypodermic injections were administered Carr failed to vomit the stuff, and it is not known yet what the result will be. The county physician thinks he will recover, because of his giant strength.

CABINET CRISIS.

Austrian Ministry Tender Their Resignations, Which Are Accepted.

VIENNA, Nov. 29.—The members of the Austrian ministry yesterday tendered their resignations to Emperor Francis Joseph, who accepted them and entrusted Baron Gautschi, who holds the portfolio of public instruction of the retiring ministry, with the task of forming a new cabinet.

BURTON CONVICTED.

Jury Finds Him Guilty of Murder in the First Degree.

GREENFIELD, Ind., Nov. 29.—The jury in the Burton case, after being out five hours, brought in a verdict of guilty of murder in first degree, with imprisonment for life. Burton shot Fireman Redmond in Indianapolis, while the latter was trying to capture him for attempting to rob an old man, named Job Eldridge. Three others were implicated, two of whom are in jail. Eldridge runs a second hand store in the capital city and was supposed to have quite a sum of money on hand.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warren, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nervine. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

Telephone No. 42.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

MONDAY, NOVEMBER 20, 1897.

A PLURALITY of over 85,000 in Massachusetts does very well for an off year.

The solution of the Cuban question does not call for jingoism on the part of the United States, but a high order of statesmanship and diplomacy.

The indeterminate sentence law has been questioned as to its validity since it was passed. Judge McGregor, of the Putnam circuit court, instructed a jury under the old law declining to recognize the new one.

Most men are at work in Indiana gas belt plants to-day than at any time before, and their wages aggregate a larger sum than at any time in the past. With possibly three exceptions there has been no reduction in wages. There are many companies who have voluntarily increased wages from 2 to 15 per cent. "Iron Age," November 18, 1897.

MEXICAN MONEY VALUE.

E. W. Shepard, of this city, has just received a letter from his brother who is in Mexico. He is a carpenter and works at his trade, now being employed at Malacatan. He is a close observer and studies carefully the conditions existing in Mexico. In speaking of Mexico as a silver country he says: "I should like to have W. J. Bryan down here for a few months and then see if he would contend that the United States ought to be on a silver basis. It now takes \$280 of Mexican money to equal \$100 of United States money."

Mr. Bryan may get hold of some of this valuable information yet if he makes that contemplated invasion in Mexico and meets with such Americans as Mr. Shepard.

Wages have advanced 10 per cent in the Michigan iron mines.

The governor should be fully assured that the present law is inadequate to protect the natural gas interests of Indiana before deciding to call an extra session of the legislature. It is evident that there is more to be gained than is foreseen.

The announcement by Congressman Griffith of the appointment of his private secretary comes as a great disappointment to a number of young men over the district. One of the disappointed resides here, but he was told by the REPUBLICAN some time ago that the appointment would go to Jefferson county.

Some of the features of the immigration bill which Senator Fairbanks has prepared and will introduce in the senate have been given out and meet with favor generally. It will not meet with such opposition from intelligent foreign-born citizens as did the bill a year ago. Its central feature is the educational test, and is said to be absolutely ineffective to that class of foreigners who make desirable citizens. Senator Fairbanks is assured of the cordial support of the German population and the German press, also the industrial classes. He thinks the measure will pass both branches of congress without much delay.

POLITICAL BREVITIES.

Congressman Griffith has appointed C. R. Melcher as his private secretary according to a preselection agreement.

Francis T. Root, of Connersville, is intended as a probable candidate for secretary of state before the next republican state convention.

It is said that N. H. Molsinger, the banker, real estate agent, school supply man and populist editor will again be a candidate for congress in the second district.

The Columbia Club, of Indianapolis has decided to erect a new building costing about \$80,000. The membership of the club will be increased from 400 to 650, including some prominent republicans from all parts of the state.

NAVAL CONSTRUCTION.

High Engine and Fire Room Temperatures on a Warship.

The great internal heat that rendered the Amphitrite inefficient was due to lack of provision for ventilation in the engine and boiler spaces. These regions became so hot that little useful work could be done in them, and the lack of air was such as to actually ruin the furnace draft, smoke coming out freely from the holes in the furnace doors. Aside from two small ash hoist tubes in the central part of the fireroom and a small escape hatch forward, there were no openings from the fireroom to the outer air. The boilers reached nearly to the iron main deck of the vessel, and as the air above them and between the deck beams had no escape it became greatly heated and lay roasting in those spaces. It was impossible for a man to go on the gratings behind the upper parts of the boilers after they had been under steam a few hours, though the main and auxiliary stop valves were there. A board of officers that reported on temperatures in the vessel got at this place only by introducing a thermometer on the end of a long pole, and this thermometer, when fished out and taken to a place where it could be read, showed 202 degrees.

The superstructure containing the cabin and wardroom was directly above the engine and boiler rooms, with a light wooden floor laid over the iron main deck. At sea, with the doors closed, this habitation became exactly like a frying pan on a hot stove lid. The smoke pipe, partly uncovered for alleged ventilating purposes, passed through the center of the wardroom and by vigorous radiation contributed its full share to the general discomfort. The deck, in spite of its wooden sheathing, was so hot as to be painful, and I hesitate to say from memory the temperatures the board reported as being usual in the rooms, in bureau drawers, on the wardroom table and in other parts of the officers' quarters. It was as high as 112 degrees, and I think greater. Sleep was only a period of unconsciousness, induced by utter exhaustion, and was without restful quality. The fireroom temperature was never below 150 degrees and often above 170, while the engine room ranged closely about 150 degrees. For the first 24 hours the men stood it well, but on the second day seven succumbed to the heat and were put on the sick list, one of them nearly dying. Before the voyage was ended 28 had been driven to seek medical attendance.

On the evening of the fourth day out our men had literally fought with fire to a finish and had been vanquished. The watch on duty broke down one by one and the engines, after lumbering along slower and slower, actually stopped for lack of steam. The ship was allowed to drift inshore on the tide and was finally brought to an anchor in St. Simon's sound. Though a warship of formidable characteristics and sent on this distant service, it is doubtful if the Amphitrite could have gone into action at that time or have steamed 100 miles farther to save herself.—F. M. Bennett, U. S. N., in Cassier's Magazine.

Wants It This Time.

"Hand over and be quick about it," said the "hold up" as he put a revolver to the head of the belated man. "But you held me up last week and didn't get anything," remonstrated the victim. "Well, hand over what I didn't get then!"—Detroit Free Press.

HORRIBLE STORY.

Two Washingtonians Killed in the Congo State--Bodies Mutilated.

WASHINGTON, Nov. 29.—A startling and horrible story of the killing of two Washingtonians and the mutilation of their bodies by the natives, of the Congo Free state has just been received here in a letter to Mr. Leo Harmon. The men were members of a party who, during November and December, 1894 and January, 1895, went from this city to enlist in the Belgian army for service in the Congo state. In the party were Lindsay G. Burke and a Mr. Mellin, who was at one time a non-commissioned officer of the United States army.

The information received by Mr. Harmon is that Burke and a party of 50 natives, who were sent out to dislodge a band of dwarfs who had revolted, were ambushed and killed. An Arab who escaped states that the most hideous looking little man he ever saw walked up and cut Burke's head off with one blow of a knife. The chief then began to slice pieces off his legs and arms and to distribute them among his followers.

The other Washingtonian was Mellin, who, with a number of other officers, were assassinated near Kabanbarre, during a revolt. The body of Mellin was butchered almost beyond recognition, his heart having been cut out and burned so that his courage could not again be used against the rebels by the whites. It is their belief that unless the heart is burned and the ashes scattered to the four winds the spirit of the man descends to his brethren.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

THROUGH A TRESTLE.

Twenty-three Cars Precipitated Sixty-five Feet—Two Killed. WINCHESTER, Ky., Nov. 29.—As a heavy freight train on the Kentucky Central branch of the Louisville and Nashville road was passing over a wooden trestle spanning a deep ravine late Saturday the structure gave way, precipitating 23 coal laden cars to the rocks, 65 feet below. The engine and tender passed over safely. A number of bridge carpenters were at work at the bottom of the trestle when it fell. Most of them made their escape. James Harris and Warren Burch, however, were instantly killed. Their bodies were buried under hundreds of tons of coal, lumber and other freight.

NEW TRUNK LINE.

Vanderbilt to Invade the Pennsylvania Company's Territory. CHICAGO, Nov. 29.—John Jacob Astor and a distinguished party of eastern capitalists and railroad magnates are in this city to take steps for welding several short lines of western roads into a new trunk line from Chicago to New York. The new route is to find its terminals over the Nickel Plate and the Illinois Central. It is but another giant link in the Vanderbilt trunk line system, having for its special purpose an invasion of the Pennsylvania road's Ohio and Indiana territory.

HORRIBLE CRIME.

Man Murdered and Robbed and His Wife Outraged. LITTLE ROCK, Ark., Nov. 29.—On a large cotton plantation in St. Francis county, eight negroes went to the home of Joe Miller, a cottonpicker, and after robbing him of his savings, dragged him from bed and murdered him. The body was thrown in the river. Ada Miller, the murdered man's wife, was then outraged and the house looted. William Williams was arrested and made a full confession implicating seven others, four of whom have also been jailed.

SHRINER INJURED.

Benjamin H. Dudley Severely Hurt During an Initiation. LOUISVILLE, Nov. 29.—Benjamin H. Dudley, contracting agent of the White Line Central Transit company, was seriously injured while attending an initiation of Congressman Evans by the Mystic Shriner. He was taken to the home of James McFarlan. Physicians were called and it was necessary to perform a delicate operation. Mr. Dudley had assisted in the initiation ceremonies, following which he engaged in a playful "game degree" with some of the members.

WEAPON HELD FIRE.

Little Boy Looked Into the Barrel and Was Killed. KENT, O., Nov. 29.—Ernest Nash, aged 8, found an old musket. He called his three little brothers and sister, laid the weapon across a chair, and said: "Now watch me kill a rabbit." He pulled the trigger, it held fire, he looked into the barrel to see what was wrong, the load entered his breast and he fell dead. The parents were absent at the time.

Catarrh Cannot be Cured With LOCAL APPLICATIONS, as they cannot reach the seat of disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Christmas Ladies' Home Journal.

The Christmas Ladies' Home Journal opens with a page of pictures of beautiful children, selected from thousands of portraits. The children's holiday greeting is a pleasing introduction to the excellent articles pertaining to the great festival season. One of these interestingly describes Christmas in the Palace at Potsdam, telling how the German Emperor and Empress and royal children celebrate the day. There are also two admirable short stories, "Christmas at the Hollyhocks," and "Christmas at the Trimble's."

A feature that will arouse widespread interest is the first letter of a series giving "The Inner Experiences of a Cabinet Member's Wife." They present an inside view of Washington political and social life, as has never before been done in any magazine. The letters will occasion much surprise. A reading of the first installment makes obvious the reason for withholding the writer's name.

COURT NOTES.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Topics of the Day.

The pre-eminent topic of the day at this season of the year is Christmas; Christmas festivities, Christmas legends, customs, and symbols. The leading article of the December number of Demorest's tells the story of "Christmas Chimes all over the World." The story is told from the standpoint of human interest, and is illustrated with eleven fine pictures of the homes of the most famous bells.

The material of the body of the magazine is of varied and widespread interest. The home maker will find a field for profitable study in an article giving reliable information on the making of "Oriental Cozy Corners," illustrated in a most picturesque fashion.

The Fashion Department in the December Demorest's is the most complete published in any family magazine. Forty-two patterns are given of the latest winter styles.

ONE OF TWO WAYS.

The bladder is created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee effectiveness of this cure.

"How the Bible Came Down to Us" is the title of an article by Dr. Chilton H. Levy in the December number of the American Monthly Review of Reviews. Dr. Levy traces the history of the history of the various versions of the Scriptures, presenting photographic reproductions of portions of the most celebrated manuscripts and printed texts. In view of the recent revival of interest in biblical discovery and textual criticism, this attempt to give a popular exposition of the subject will doubtless be warmly welcome.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

Prof. J. F. Baird, of Charlestown came here this forenoon to join his wife who is the guest of her aunt Mrs. Mary Marsh.

JOHN R. McLean's Newspaper.

With a single exception, there is no newspaper in the United States that has been more successful publisher than a proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, with a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.
